Universal Colour Changer

- The Same Great Reliability and Value in an Improved Design

With over 50,000 colour changers from the Chroma-Q™ range sold to date, it's no wonder they have an industry proven reputation for performance and reliability.

Combined with a choice of models to fit most fixtures and new advanced features, the range offers outstanding value.

The Chroma-Q Universal colour changer has been designed to maximise flexibility and usability by incorporating a host of next generation advanced features. Our integrated universal mounting system adjusts between 147-275mm and mounts fixtures with up to 50 degree beam angles without light loss. DMX control for fan speed, scrolling speed, gel-saver mode and reset is also incorporated. Requires additional power supply.
